

AMENDMENT TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-20 (canceled)

Claims 21-39 (canceled)

40. (previously presented) A method of providing tissues in a shower stall comprising the steps of:

A) providing a tissue dispenser having a tissue dispenser station containing tissues to be dispensed, and a tissue disposal station for receiving used tissues, the tissue dispenser station separated from the tissue disposal station by a wall and having a tissue dispensing orifice, the tissue disposal station having a tissue disposing orifice; and

B) mounting the tissue dispenser at the shower stall above floor level.

41. (previously presented) The method according to claim 40 wherein step B comprises mounting the dispenser with the tissue dispensing orifice facing downwardly.

42. (previously presented) The method according to claim 41 wherein step B comprises mounting the dispenser with the tissue disposing orifice facing upwardly.

43. (previously presented) The method according to claim 40 wherein step B comprises mounting the dispenser with the tissue dispensing orifice and the tissue disposing orifice facing in mutually opposite directions.

44. (previously presented) The method according to claim 40 wherein step B comprises mounting the dispenser with the tissue disposal station and the tissue dispenser station disposed one above the other.

45. (previously presented) The method according to claim 44 wherein the tissue disposal station overlies the tissue dispensing station.

46. (previously presented) The method according to claim 40 wherein step B comprises adhering the dispenser to a vertical wall by a fastener disposed on a rear portion of the dispenser.

47. (previously presented) The method according to claim 40 wherein step B comprises suspending the dispenser from a support by an elongated element.

Claims 48-53 (canceled)

54. (previously presented) The method according to claim 40 wherein step B comprises mounting the dispenser with the tissue disposal station overlying the tissue dispenser station, and with the tissue dispensing orifice facing downwardly and the tissue disposing orifice facing upwardly; step B also comprising adhering the dispenser to a vertical wall by a fastener disposed on a rear portion of the dispenser.
